Life Science Manatees

From Mote Marine Laboratory—SEA Trek

Do you know how to train a 3000-pound relative of the elephant? Find out how Mote Marine Laboratory cares for Hugh and Buffett, our resident manatees, and learn how big and smart they are.

Up to 60 minutes. Grades 3-8 \$162 (Paid by NWECS)

Marine Careers

From Mote Marine Laboratory—SEA Trek

Students will learn about marine science and aquarium careers and what it takes to work in these fascinating fields. Featured topics can include: shark research, animal husbandry, sea turtle nest monitoring, manatee training and research, coral reef research and restoration, behind the scenes at Mote's cephalopod Lab and much more!

Up to 60 minutes. Grades 3-12 \$162 (Paid by NWECS)

Endangered Species

From The Toledo Zoo

Students will learn the meanings of "endangered and meet real examples of endangered species by visiting exhibits at the Toledo Zoo. We will discuss some specific problems causing endangerment and explore ways that zoos are helping endangered species. All Toledo Zoo Programs include a live tour of an animal exhibit with a knowledgeable guide and time for interaction with participants

30-40 minutes. Grades K-12 \$55 (Paid by NWECS)
