

NWECS 2019-2020

Distance Learning Field Trip Feature

GREENVILLE ZOO IN SOUTH CAROLINA

To book a virtual Field trip please contact the NWECS office with **three** preferred dates and times.

By phone:
715.788.7048

Or email:
Brenda.Rouzer@northwoodtech.edu

Cost Covered by
NWECS up to
\$400/year

Check it out:

<https://www.greenvillezoo.com/174/Distance-Learning>

Visit the zoo without ever leaving your classroom! The Greenville Zoo broadcasts video conferencing programs directly from our classroom to yours and incorporates a variety of hands-on activities in every class.

- **Animal Locomotion**

Students will explore how animals move. Children will meet animals and explore their many movements: walking, crawling, hopping, flying, and more! They will even try some of the moves themselves.

PreK and Kindergarten/ \$100

- **Discovering Habitats**

Join us as we explore what makes an animal's home special for them. From sandy deserts to the tops of rain forests, we will discover some interesting things about these places and investigate how animals survive in their specific habitat.

Grades 2-4/ \$100

- **Animal Senses**

How do snakes hear without ears? Why do owls have to turn their heads so far to see? Students investigate puzzling questions like these through hands-on activities.

Grades 1-4 / \$120

- **Who's Who in the Zoo**

How do we give a venomous snake medicine? How do we get a giraffe to move from one place to another? Through the "Who's Who in the Zoo" your students will learn cool facts and behind the science information concerning the care for our animals

All ages / \$100

PROGRAM LENGTH: 30-45 minutes
